Order No, PL 08/04

Mission

Partners for Health Reformplus is USAID's flagship project for health policy and health system strengthening in developing and transitional countries. The five-year project (2000-2005) builds on the predecessor Partnerships for Health Reform Project, continuing PHR's focus on health policy, financing, and organization, with new emphasis on community participation, infectious disease surveillance, and information systems that support the management and delivery of appropriate health services. PHRplus will focus on the following results:

- ▲ *Implementation of appropriate health system reform.*
- ▲ *Generation of new financing for health care, as well as more effective use of existing funds.*
- ▲ *Design and implementation of health information systems for disease surveillance.*
- ▲ *Delivery of quality services by health workers.*
- ▲ *Availability and appropriate use of health commodities.*

This document was produced by PHRplus with funding from the US Agency for International Development (USAID) under Project No. 936-5974.13, Contract No. HRN-C-00-95-00024 and is in the public domain. The ideas and opinions on this document are the authors and do not necessarily reflect those of USAID or its employees. Interested parties may use the report in part or whole, providing they maintain the integrity of the report and do not misrepresent its findings or present the work as their own. This and other HFS, PHR, and PHRplus documents can be viewed and downloaded on the project website, www.PHRplus.org.

PHR*plus* Resource Center

The Resource Center distributes project publications and serves as an information broker to increase and facilitate access to information on all aspects of health reform. The Resource Center provides reference services to staff, counterparts, and to USAID. A monthly electronic bulletin announces new acquisitions and highlights websites of particular interest.

Bibliographic Database on Health Sector Reform

The PHR*plus* Resource Center bibliographic database cites books, papers, gray literature, videos, CD-ROMs, and journal articles related to health sector reform and the work of PHR*plus*. The database contains over 5,000 entries and can be searched by title, author, publisher, organization, date, country, region, language, and subject. To facilitate access to constituents around the world, ordering information and livelinks to documents are provided with each entry as available. The database can be accessed on the website at <http://www.PHRplus.org>.

Ordering Information

All HFS, PHR, and PHR*plus* documents are available at the project website, www.PHRplus.org.
